High School

SUMMARY

Creative and experienced with many years of experience in graphic design. Proven ability to use Adobe Photoshop, Illustrator, and InDesign to create high-quality print and digital media.

Skilled in customer service, project management, and problem-solving. Successfully designed and created promotional materials, managed inventory and supplies, and maintained a clean and organized work area. Worked with clients to understand their needs and create designs that met their goals. Collaborated with other designers and developers to bring projects to life. Managed projects from start to finish.

Seeking a challenging position in a creative environment where I can use my skills and experience to make a positive impact.

WORK EXPERIENCE

Graphic Designer

B2 Copy Center
Al Khobar, Dammam, Saudi Arabia.

Duration : Feb 2022 to Till Now.

Responsibility :

Create and design promotional materials: This includes flyers, brochures, posters, and others branding & marketing materials.

Assist customers with graphic design software: This includes providing customer assistance with Adobe Photoshop, Illustrator, and other graphic design software.

Provide technical support: This includes answering customer questions about printing and copying equipment, and troubleshooting problems.

Process print and copying orders: This includes taking orders, processing payments, and ensuring that orders are completed accurately and on time.

Operate a variety of printing and copying machines: This includes copiers, printers, and scanners.

Working with clients to understand their needs: This includes meeting with clients to discuss their goals and requirements, and developing designs that meet their needs.

Managing projects from start to finish: This includes planning, executing, and delivering projects on time and within budget.

Collaborating with other departments: This includes working with marketing, sales, and other departments to ensure that designs are aligned with the company's overall branding and messaging.

Staying up-to-date on the latest design trends: This includes reading industry publications, attending conferences, and taking online courses to stay ahead of the curve.

WORK EXPERIENCE

Graphic Designer (Remote)

Dream Controller Inc.
Pennsylvania, United State

Duration : March 2020 to January 2022.

Responsibility :

Xbox One, Xbox Series X, Xbox Elite or Nintendo Switch Controller Design.
Xbox and Ps4 game controller designs.

Concept development: Coming up with creative and original ideas for game controller skins. This may involve brainstorming, research, and sketching.
Design: Turning the concept into a finished design, taking into account factors such as the controller's shape, size, and functionality. This may involve using digital design software or traditional art techniques.
Coloring: Choosing the colors and patterns for the skin. This should be done in a way that is visually appealing and complements the controller's design.
